SUMMARY

Frontend developer with a BS in Computer Science (cum laude) who takes React, Next.js and TypeScript applications from Figma to deployment. Built a live real-time queue and court app for a pickleball club and led developer communities of 1,500+ members.

TECHNICAL SKILLS

- **Languages:** TypeScript, JavaScript (ES6+), HTML, CSS, SQL, Python
- **Frontend:** React, Next.js, Vite, Tailwind CSS, Framer Motion, GSAP, Zustand, shadcn/ui, WebGL (Three.js, GLSL), Web Workers, PWA, Web Push, accessibility (ARIA, reduced motion)
- **Backend and data:** Node.js, Express, Supabase, PostgreSQL, Row Level Security, Firebase Firestore, REST APIs, OpenAI API
- **Tooling:** Git, GitHub, npm, Vercel, Playwright, Jest, Vitest, Chrome DevTools, Shopify Liquid, Figma

PROJECTS

Haff Leisure Club, open-play queue and court timers | React, TypeScript, Supabase | haffleisureclub.com 2026

- Replaced the club's whiteboard: players follow the queue by phone, staff run one board, a TV shows all three courts.
- Automated court release with a server-side job, so the board stays correct with no staff phone open.

Paddle Zone BCD (pre-launch), gamified club app | React, TypeScript, PWA | paddle-zone-bcd.vercel.app 2026

- Designed "Strava for open play" Instagram share cards with the Web Share API, so players spread the word.
- Built an RPG-style passport with levels, grades and quests, plus pixel mini games, to bring players back.
- Built an on-device AI voice announcer in a Web Worker to prevent missed court calls without freezing the TV board.

SMDI Consultants (client proposal), website and CMS | Next.js, Prisma | smdi-website.vercel.app 2026

- Built a six-page, 1:1 responsive Figma site with a custom CMS, so a team can update it without a developer.

NewSearch, news signal lens | React, Express, Brave Search API | newsearch-frontend.vercel.app 2025

- Built a Brave Search pipeline to cut noisy feeds, with URL deduplication, custom ranking and 27 passing Jest tests.

EXPERIENCE

Freelance Designer and Developer | Remote Jun 2025 – Present

- Built Haff Leisure Club (see Projects) and delivered web design, SEO and video work for clients.

Armada Brands | Creatives and Marketing Intern | Makati City Jun 2024 – Sep 2024

- Advanced from design intern to Shopify development, adjusting Liquid themes and page layouts for D2C brands.
- Led visuals for the 7.7 and 8.8 mega-campaigns.

VOLUNTEER EXPERIENCE

GDG on Campus, University of St. La Salle | Lead and Organizer Aug 2022 – Jun 2025

- As GDSC Lead (2022 to 2023), grew members from 8 to 150+ in a month; ran 30+ events for 5,000+ people.
- As Organizer (2024 to 2025), led 40 officers, ran 50+ workshops and grew members from 500 to 1,500+ in 5 months.
- Project lead for SONDER: Google Dev World Tour, six international events for 2,650+ developers.

GDG Bacolod | Creatives Co-head | Bacolod City Nov 2022 – Jul 2025

- Hosted day one of DevFest Bacolod 2023 (800+ attendees) and designed its main visuals and 3D motion graphics.

DEVCON Bacolod | Acting President, Chapter Lead | Bacolod City 2023 – 2024

- Led CIPHER, the chapter's AI series, with "Hacking AI" (Feb 2024) supported by Accenture and Talino Venture Studios.
- Designed the event campaign, including speaker cards and an inter-school attendance leaderboard.

EDUCATION

Bachelor of Science in Computer Science | University of St. La Salle, Bacolod City Aug 2021 – Jun 2025

- Cum Laude, GWA 1.3 (97%); Rank 1 of 7,042 students across all colleges in first year; Outstanding Intern Award

CERTIFICATIONS

AI Engineer for Developers Associate (DataCamp) | Foundations of UX Design (Google) | GitHub Foundations
