SUMMARY

Frontend developer with a BS in Computer Science (cum laude) who takes React, Next.js and TypeScript applications from Figma to deployment. Built a live real-time queue and court app for a pickleball club and led developer communities of 1,500+ members.

TECHNICAL SKILLS

- **Languages:** TypeScript, JavaScript (ES6+), HTML, CSS, SQL, Python
- **Frontend:** React, Next.js, Vite, Tailwind CSS, Framer Motion, GSAP, Zustand, shadcn/ui, WebGL (Three.js, GLSL), Web Workers, PWA, Web Push, accessibility (ARIA, reduced motion)
- **Backend and data:** Node.js, Express, Supabase, PostgreSQL, Row Level Security, Firebase Firestore, REST APIs, OpenAI API
- **Tooling:** Git, GitHub, npm, Vercel, Playwright, Jest, Vitest, Chrome DevTools, Shopify Liquid, Figma

EXPERIENCE

Freelance Designer and Developer | Remote — Jun 2025 – Present

- Built Haff Leisure Club (see Projects) and delivered web design, SEO and video work for clients while travelling after graduation.

GDG on Campus (formerly GDSC), University of St. La Salle | Lead and Organizer | Bacolod City — 2022 – Jun 2025

- As Lead (2022 to 2023), grew the chapter from 8 to 150+ members in one month and ran 30+ events with 5,000+ participants.
- As Organizer (2024 to 2025), led 40 officers, ran 50+ workshops and grew membership from 500 to 1,500+ in five months.
- Project lead for SONDER: Google Dev World Tour, six international events for 2,650+ developers.

Armada Brands | Creatives and Marketing Intern | Makati City — Jun 2024 – Sep 2024

- Moved from design intern to Shopify development, adjusting Liquid themes and page layouts for D2C brands.
- Led visuals for the 7.7 and 8.8 mega-campaigns; received the college's Outstanding Intern Award.

GDG Bacolod | Creatives Co-head | Bacolod City — Nov 2022 – Jun 2025

- Hosted day one of DevFest Bacolod 2023 (800+ attendees) and designed its main visuals and 3D motion graphics.

DEVCON Bacolod | Acting President, Chapter Lead | Bacolod City — 2023 – 2024

- Led the local chapter of the Philippines' largest volunteer tech community.

PROJECTS

Haff Leisure Club, open-play queue and court timers | React, TypeScript, Supabase | haffleisureclub.com — 2026

- Replaced the club's whiteboard: players follow the queue by phone, staff run one board, and a TV shows every court.
- Courts no longer depend on a staff phone being open: a server-side job releases finished courts and seats the next group.

Paddle Zone BCD (pre-launch experiment), gamified club app | React, TypeScript, Supabase, PWA — 2026

- Gives players a reason to spread the word: "Strava for open play" share cards for Instagram through the Web Share API.
- Keeps people coming back and makes waiting fun: an RPG-style passport with levels, grades and quests, plus pixel mini games.
- Prevents missed court calls: an on-device AI voice announces each court, running in a Web Worker so the TV board never freezes.

SMDI Consultants, website and custom CMS | Next.js, TypeScript, Prisma | smdi-website.vercel.app — 2026

- Lets the team update the site without a developer: a 1:1 responsive Figma build with a custom CMS for every section and post.

NewSearch, news signal lens | React, Express, Brave Search API | newsearch-frontend.vercel.app — 2025

- Cuts through noisy news feeds: Brave Search pipeline with URL deduplication, custom ranking and 27 passing Jest API tests.

EDUCATION

Bachelor of Science in Computer Science | University of St. La Salle, Bacolod City — Aug 2021 – Jun 2025

- Cum Laude, GWA 1.3 (97%); Rank 1 of 7,042 students across all colleges in first year

CERTIFICATIONS

AI Engineer for Developers Associate (DataCamp) | Foundations of UX Design (Google) | GitHub Foundations
